MSI Command-line Options

DISABLEUPDATEUI=1

Disables and hides the update UI from the user. With this option, all updates have to be done manually.

Default = False

Note: updates registry key HKLM\Software\KaDonk\LiveProject\DisableUpdateUI (True/False)

DISABLELOGINPROMPT=1

Disables the update prompts shown during startup if using the LiveProject Free Viewer.

Default = False

Note: updates registry key HKLM\Software\KaDonk\LiveProject\DisableLoginPrompt (True/False)

HIDEBUGZILLAMENUS=1

Disables and hides the Bugzilla UI from the user, e.g. Bugzilla tab and menu items.

Default = False

Note: updates registry key HKLM\Software\KaDonk\LiveProject\HideBugzillaMenus (True/False)

HIDECOLLABORATIONMENUS=1

Disables and hides the collaboration UI from the user, e.g. Explorer, Manage Project Suggestions and Manage Users tab as well as other UI related to collaboration features.

Default = False

Note: updates registry key HKLM\Software\KaDonk\LiveProject\HideCollaborationMenus (True/False)

HIDESHAREPOINTMENUS=1

Disables and hides the SharePoint UI from the user, e.g. SharePoint tab as well as other UI related to SharePoint features.

Default = False

Note: updates registry key HKLM\Software\KaDonk\LiveProject\HideSharePointMenus (True/False)

HIDEPROJECTPORTFOLIOMENUS=1

Disables and hides the Project Portfolio UI from the user, e.g. Project Portfolio tab as well as other UI related to Project Portfolio dashboard features.

Default = False

Note: updates registry key HKLM\Software\KaDonk\LiveProject\HidePortfolioMenus (True/False)

LICENSEKEY="xx-xxx-xxxxxxxx"

Allows you to store the license key into the registry. The client will check this during startup and activate the client if it is not already activated.

Note: updates registry key HKLM\Software\KaDonk\LiveProject\LiveProjectLicenseKey

RESTOREXPROJECTS=X

Configures how many Project files LiveProject will restore during startup (if these Project files were left open when the user last exited LiveProject). Set to -1 to restore all Projects left open.

Default = -1 (Restore all)

Note: updates registry key HKLM\Software\KaDonk\LiveProject\RestoreXProjects (-1, 0 and up)

SHOWPROJECTSTATUSBAR=1 or 0

Configures whether the Project Status Bar (shown above Gantt Chart) is shown by default.

Default = 1 (true)

Note: updates registry key HKLM\Software\KaDonk\LiveProject\ShowProjectStatusBarByDefault (1 or 0)

ONLYASSOCIFNOPROJECT=1

If set to true, then LiveProject will only associate MS Project files with LiveProject if MS Project is not already installed.

Default = 0 (false)

PERMACHINE=1

If set to true, then LiveProject will make the file association settings to be per machine (e.g. under HKEY_LOCAL_MACHINE instead of under HKEY_CURRENT_USER).

Default = 0 (false)

REMOTESERVER=1

If set, LiveProject will also act as a server allowing other applications to open, print and inspect Project files as well as bring up LiveProject UI. Currently in Beta.

Default = False

Note: updates registry key HKLM\Software\KaDonk\LiveProject\RemoteServer (True/False)

SHOWCUSTOMERTAB=1

Configures whether to show an extra Tab for project with only the Task Sheet in it.

Default = False

Note: updates registry key HKLM\Software\KaDonk\LiveProject>ShowCustomerTab (True/False)

CUSTOMERTABNAME="Name"

Configure the name of the Customer Tab.

Note: updates registry key HKLM\Software\KaDonk\LiveProject\CustomerTabName

Registry Entries

HKLM\Software\KaDonk\LiveProject\PremiumViewerDefault=True or False

Configures whether LiveProject should be installed in Premium Viewer default mode.

HKLM\Software\KaDonk\LiveProject\CollaborationDefault=True or False

Configures whether LiveProject should be installed in Collaboration default mode.

Questions/Comments

Contact us at support@kadonk.com if you have any questions or comments about these options, or if you have a need for a new option for your deployment.
